John Beattie, Manager-Clinical Chemistry/Immunology, HRLMP

DATE: November 13th, 2025

Hemolytic Anemia Investigation Reporting Change

Effective December 16th 2025, the Red Cell Disorders Laboratory will be making a change to the reporting format for the Hemolytic Anemia Investigation order.

Currently, the Complete Blood Count (CBC) component results are held until the blood smear component results are complete and are reported together. With the reporting change, the CBC and blood smear results will be reported separately as they are complete.

Please see the attached sample reports.

For inquiries, please contact John Beattie beattiej@hsc.ca at Ext 46130.

We remain committed to offering the best possible care and service to our customers. If you have any questions or concerns, please do not hesitate to contact us at LRCClientSupport@hsc.ca.

Thank you!
